SOUTHAMPTON
Children's Hospital

Are you a GP Trainee?

Would you like to be more confident with Paediatric emergencies?

Would you like to do this in a fun and interactive way?

If the answer to the above questions is YES then CCAP is the course for you!

CCAP is a course run by experienced Paediatric Registrars and nurses over 2 days to teach you everything you need to know about acute Paediatrics!

The course is highly interactive and combines tutorials, workshops, skills stations and simulation to help increase your confidence and knowledge.

The course is specifically focused on community management of acute presentations.

I really enjoyed being taught by Registrars – it was a very friendly open

Great to consolidate learning using simulation

All so relevant – all GP Trainees should do this course

I feel so much more confident now – I would definitely recommend this course to other trainees

Great to talk about how and when to refer safely

Saturday 28th February and Sunday 1st March
at Southampton General Hospital

Only £150!

(includes both days, comprehensive course handbook, food and parking)
