Book online today at www.rcgp.org.uk/wessex

What the day includes:

Following the success of our recent Current Paediatrics for GPs courses we have arranged a further course which includes a brand new DVD of the 6 week check to take away with you and an interactive overview of child development

This course is ideal for any practitioner working with children, with a specialist interest or needing evidence of training. Don't put that update in Child Health off any longer!

Aim of the course:

To be more confident with 6 week check. Able to recognise surgical presentations, like haemorrhoid, in children and when to refer certain childhood problems like undescended testes. To manage leg and knee problem in children and back pain

Topics include:

- Surgical Paediatrics
- Common Orthopaedic Problems in Childhood
- 6 Week Check
- Managing Asthma in Children

The full programme is subject to confirmation - please refer to the website for up to date details.

Tutor:

This course is GP-led by Dr Kathryn Bannell but will bring in expertise from outstanding paediatric general and orthopaedic surgeon Mr Rob Richards

Evaluations on the previous course scored an average of 4.8/5

Alternative Manual Booking:
